GIFT AND GARDEN CENTRE

WELCOME TO

HappyPlant

Once upon a time (1984 to be precise) in the Buchan village of Mintlaw, 1 mile from Aden Country Park and less than 1/2 hours drive from Aberdeen, a seed was planted named The Happy Plant Garden Centre.

Over the years it has grown to become a flourishing business renowned for its quality products and service.

Life began as a little wooden shed in a 'boggy howe,' but 35 years on it is one of the largest gift and garden centres in the north east of Scotland and has achieved a four-star rating from the Scottish Tourist Board.

The site now covers approximately four acres, including a large car park and has over 60 friendly and helpful employees on the payroll, many of them long-term members of staff who have 'grown up' with the business.

To accommodate the large number of customers, we have ample parking for cars and coaches, as well as disabled parking spaces close to the gift and garden centre entrance.

The business has been set up to offer the garden enthusiast everything they could possibly desire from plants to compost, fertilisers to garden furniture, garden lighting to outdoor ornaments.

If you are not sure what to do with your garden and you are after inspiration, then visit Happy Plant Garden Centre. You will find us welcoming, friendly and only too willing to help.

A long-awaited coffee shop was added in 2005 and extended to meet demand a few years later.

The range of goods for sale has also changed over the years with hundreds of suppliers from plants to pet supplies, clothes to food as well as an amazing selection of gifts and homeware.

GARDEN

FURNITURE - Sit back and relax with our large range of garden furniture. We have benches, rockers, chairs, dining table sets, picnic tables, swings, garden arches the list goes on.

DEREK L YOUNG
CHARTERED ARCHITECT

THE VERY BEST IN ARCHITECTURAL DESIGN

There are many individual reasons for needing the services of an architect, maybe you are thinking of building a new home or perhaps you need a different room layout or extension in your existing home.

You may be a home owner or a business who is looking for specialist advice and guidance on how to make the best use of the space you already have.

With over 30 years experience, Derek L Young Chartered Architect is the architect that should be at the top of your list.

An architect should be involved from the earliest stages of your project, as they are able to offer you the benefit of their experience in deciding how to maximise the potential of your existing property or indeed, to propose ideas for the property you are about to purchase.

They will discuss your needs in detail and then produce a design scheme.

Once you have decided on the specific area of your home or business that requires attention, they will draw up the plans and submit these to the Local Authority for Planning and Building Regulations.

They have a tremendous amount of knowledge and experience in how these two processes work and know how to satisfy the very demanding and specific requirements of a Local Authority.

They will also prepare the full building specifications needed to obtain competitive prices from various building contractors.

You can also expect them to set out their professional relationship at the start of the commission to reflect your needs.

The objectives of their clients are met by professionalism and maintaining the highest standards of performance, efficiently and economically.

Whatever your building project, Derek L Young Chartered Architect is ready and willing to take your call.

Alan Stuart (Builders) Ltd
Ellon

The builder you can rely on

Finding a reliable builder can sometimes prove to be a tricky task. This can be made even more difficult if you are new to the area and do not know anyone.

Alan Stuart Builders come highly recommended and have many years experience. They offer a wide range of building services, including all the traditional disciplines of extensions, brickwork, restorations and conservatory bases.

The ethos of the business encompasses time honoured values with modern and progressive thinking, both of which have been embodied in the business since it was first established.

Everyone involved in the company believes in these traditional values which offer good quality work at fair and honest prices.

Whilst this thinking underpins everything they do, they also appreciate that their clients should expect honesty, integrity and the use of highly skilled traditional tradesmen in providing an excellent product.

Like any business, they are open to change and consider themselves as forward thinking and progressive in their attitude.

The building industry and their code of practice is constantly under review and subject to change. Alan Stuart Builders always ensure they operate within these guidelines.

Alan Stuart Builders are fully regulated and know that their customers are their most important asset, they have adopted certain standards which they believe are invaluable.

Irrespective of the task being completed, they will always ensure that the areas being worked on are kept clean, tidy and above all, offer a safe working environment.

Their customers can expect all tasks to be overseen from the start of the process right through to completion. This will make sure that everything which needs to be done, is done and is completed in the correct order.

Whilst there can always be problems, the objective of the business is to complete the job, on time and on budget. You can also expect to be regularly updated on progress and involved in any major decisions.

Last, but not least, they will never leave a task until the customer is satisfied with the work carried out. If you are looking for a building contractor, you would do well to contact Alan Stuart Builders.

URBAN GREEN DESIGN

GARDEN & LANDSCAPE DESIGN BY *Pauline Smith*

WELCOME TO URBAN GREEN DESIGN

If you are looking to improve your playground or transform your own garden... Urban Green Design can help!

The business is run by Pauline Smith who worked as a primary school teacher in and around the North East of Scotland for over 15 years. It was whilst teaching that her interest in outdoor learning grew.

Whilst continuing to teach, she retrained in garden and landscape design and in 2015 passed with a distinction.

Her experience as a teacher gives Pauline a unique insight into what schools and children need from their playground and the role the outdoors has in teaching, learning and play.

Since establishing Urban Green Design, Pauline has been involved in some fantastic projects, working with nurseries and schools, elderly care-homes, community projects and many residential properties across the North East.

"I retrained because I wanted to work with schools, helping them to improve their playgrounds. But knowing just how important being outdoors is for both physical and mental health, I just want to get everyone outside, children and grown-ups - that's what I'm passionate about."

HOW IT WORKS...

INITIAL MEETING

The process starts with an initial meeting where Pauline will talk about what it is that you want from your garden, as well as any strong likes or dislikes that you might have. Pauline will also discuss any existing problems that your garden might have and advise you on possible solutions.

This initial meeting usually takes around an hour and is a free no obligation service.

DESIGN BRIEF

She will then go away and prepare a design brief based on what was discussed. The design brief will outline the concept for the garden, as well as details about features to be included, preferred materials etc and if known, information about the budget and time frame for the project.

This will be sent to you along with a fixed price quote for any other services you wish, Pauline will ask you to confirm before she proceeds.

SITE SURVEY

If you choose to go ahead, the next stage would be to carry out a site survey so that a scaled site plan can be produced.

OUTLINE PLANS

Another meeting will be arranged to discuss draft ideas and design sketches. These would then be firmed up into the final plan.

FINAL PLAN

The final plan will show both hard and soft landscaping ideas and placement of desired features. They will be presented to you using a mixture of hand-drawn sketches and computer-generated images to help give you a real sense of how the garden will look upon completion.

If required, Pauline can also produce planting plans which will show details of planting including heights, spreads and recommended colours to achieve the desired look and feel for the new garden, taking into consideration the aspect of the beds, soil type and the level of maintenance required, so the garden looks at its best throughout the year.

Ingram's

ABERDEENSHIRE

EST 1994

Locally Produced, Fresh Quality Pork

If you thought the day of the traditional butcher was over, then think again. Ingram's is a small family farm specialising in the production of the finest quality Pork from their farm in Aberdeenshire.

Established in 1994, as a pig farm they sought to offer the public a greater quality of pork. In 1999, they began producing their own bacon and sausages, right here on their farm in Newburgh.

Their pigs are cared for through every step of the process from farm to fork. Produced under the highest welfare standards, being fed with cereal produced on farm and bedded using their own straw.

All of their pork is produced under the "Scottish Quality Pork brand" which guarantees that their customers know exactly where their meat has originated from.

These days there are so many adverse reports about meat products and their good and bad points, it is good to know there is a butcher right in the heart of Aberdeenshire that you can really trust.

Why not visit Ingram's at a local farmers market and put them to the test? You can be assured that it will be the first of many visits you will make.

TRADITIONAL, HIGH QUALITY PRODUCTS

Their bacon and gammons are produced using traditional dry curing techniques. A mixture of natural salts and sugars are rubbed into the surface of the meat to allow natural absorption. This process can take up to 4 weeks ensuring they deliver a fantastic product.

Ingram's sausages are hand made using a minimum of 80% lean pork, natural skins are carefully selected and seasoned, providing their customers with high quality sausages.

They like to keep their fresh cuts of pork as fresh as possible and believe pork should not be hung for any length of time and never exceed hanging their pork for more than 7 days.

Training Lines

Training • Exercise • Play

If you are looking for pet training ideas, have a nose around Training Lines. They stock a whole host of training accessories, activity toys and games to amuse and enrich life with your pets and keep them challenged, entertained and happy. It is not just for dogs. They cater for cats and horses too.

Established in 2004, Training Lines is a family run, online retailer located in rural Aberdeenshire. As dog owners themselves, they understand the challenges faced by pet owners and can provide solutions to common training problems, as well as offering unique products that will benefit both you and your pet and help develop a lasting bond between you.

Many of their products are tested and approved by their own dogs, who are only too happy to oblige! This has given them a wealth of knowledge and they only sell products that they would be happy to use themselves.
